Recommended for slate pencil, knives, lobster gauges & whistles

Patented Flushing System allows easy cleaning as well as removing sand and debris during normal use.

Rinse Unit to extend retractor life in salt water environments after use.

Manually Flush: Operate unit in fresh water rapidly 5-10 times. If unit is packed with sand or debris, submerge unit in water with line facing upward. Allow it to fill with water and then invert unit and operate rapidly 5-10 times. Repeat until unit operates smoothly.
