

WARNING: Insure attachment to pen/pencil is secure. After installing, test for structural integrity. If unsure, check with Safety professional or contact manufacturer.

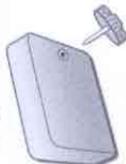

Connect to Device

Slip rubber cap over end of felt pen or carpenter's pencil.

Connect to Garment

Threaded Stud penetrates garment material and threads into back of Gear Keeper until hand tight.

Attach to structured material or pocket, NOT directly to mesh material.

WARNING: Prior to use, insure threaded stud is tight.

WARNING: Insure garment material is strong enough to hold stud mount attachment during a drop. Do NOT attach directly to mesh material.

After installing, test for structural integrity. If unsure, check with Safety professional or contact manufacturer.

Specifications
