

# Gear Keeper

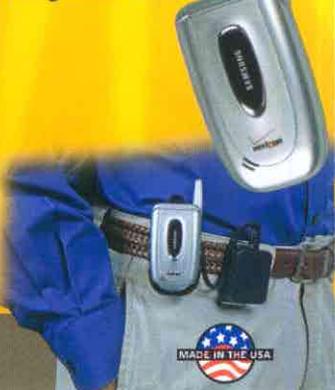

## Locking Phone Keeper™ Security Tether

Also Great for Pagers & PDAs!

Locks extended for easy phone or PDA use

Stop Breaking or Losing Your Phone

### Hammerhead's Guarantee of Quality

If you are not satisfied with any Hammerhead Product, we will replace it or refund your money within thirty days after purchase through the original dealer. Hammerhead Industries warrants its products against manufacturing defects in workmanship or materials. The warranty is void if the product has been abused beyond normal and sensible wear and tear or used for purposes other than intended.

### Cable Warranty & Rebuild Policy

All Gear Keeper® Retractors are manufactured with the highest quality cable. Occasionally inspect the cable for signs of fatigue or excess wear in order to prevent loss of gear. Hammerhead Industries will replace the cable and any worn parts for a service charge of \$8.00 (includes shipping and handling).

**WARNING:**  
**Do Not Release Retractor End When Fully Extended**  
Retraction may be rapid and forceful, resulting in injury and/or damage to the product.

High Break Strength • Salt Water Proof • Self-Flushing

## Locking Phone Keeper™ Security Tether

6 oz. Retraction Force; 28" Extension

- ▶ Ratcheting lock system allows easy phone use without line tension. A simple tug on the device releases the lock and retracts the line.
- ▶ Works in conjunction with your cell phone's mounting system. Phone is always tethered.
- ▶ 360° Rotating Belt Clip allows easy use at any angle. Minimizes line wear.

### Phone Attachment Options

Attach to lanyard loop on phone

Attach to ring on leather case

Attach with Pad Eye (high-strength 3M adhesive pad eye included)

### Added Features

Quick Connect (Q/C-I) allows phone to be easily connected or disconnected

360° Rotating Stainless Steel Belt Clip securely attaches to belts (up to 2"), pants or purse

### Specifications

- Spectra Line
- Stainless Steel Spring & Hardware
- 6 oz. Retraction Force
- 28" Extension
- 60 lbs. Breaking Strength
- Ratcheting Locking System

## ▶ Using the Locking Retractable Security Tether

The Gear Keeper® is mounted next to the device where it is worn on a belt, pants or purse. The device can also be stored in a pocket below the Gear Keeper when not in use. It is not intended to hang the device from the Gear Keeper®.

## ▶ How to use Ratcheting Lock

In most cases, when device is extended, the **Ratcheting Lock** will engage.

If not, extend device slightly until lock engages.

**To unlock;** extend device slightly until you feel some tension, then allow line to retract into Gear Keeper.

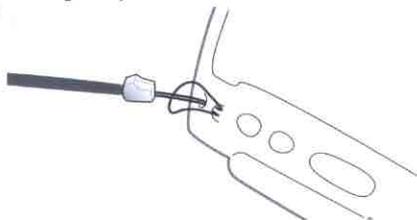

Or extend device to full extension stop, then allow line to retract.

## ▶ Phone Attachment Instructions

### For phones with integrated lanyard loop:

*Slip string of lanyard (enclosed) through lanyard loop on phone.*

*Pass male end of lanyard through string loop; then cinch tight on phone.*

### For phones with leather case and split ring:

*Slip string of lanyard (enclosed) through split ring on leather case.*

*Pass male end of lanyard through string loop; then cinch tight on split ring.*

## ▶ To Attach Belt Clip to Pants, Belt or Purse

Hold Gear Keeper in palm of one hand and slip metal tang over edge of pants or belt. Then, pull retractor away from body slightly to clear plastic tang. Slide Gear Keeper securely into place.

For questions, please contact Hammerhead Industries at [info@gearkeeper.com](mailto:info@gearkeeper.com) or (888) 588-9981 for other retractor options.

### For phones without attachment point:

*Remove backing from one side of Adhesive Patch and apply the patch to back of the Pad Eye.*

*Select location on phone back that is flat and does not interfere with holstering system (If Pad Eye is too large for your spot, it can be cut at one or both indentations with scissors)*

*For best results, clean phone surface with alcohol. Then remove remaining backing from Pad Eye and adhere to phone surface. Allow 2 hours to set.*

*Slip string of lanyard (enclosed) through hole on Pad Eye.*

*Pass male end of lanyard through string loop; then cinch tight on Pad Eye.*
